_juno presens *_BCN747*

_juno is the artistic project of Zahara and Martí Perarnau, a soft and intimate pop project in which they dissect the everyday life of a couple in a hotel room, the starting point of their previous work, *_BCNN626*. In this second full-length album, *_BCNN747*, go beyond the world they share to narrate, through the songs, what they observe and see, the journey through the cities they participate in. All those journeys through London, Mexico, Los Angeles are reflected in this album.
